Chadsworth's 1.800.COLUMNS Polystone™ Premier Custom Collection Is *Design Build Business* Magazine's Readers Choice.

For Immediate Release

Contact: Barbara P. Hedding, 910.763.7600

CHADSWORTH 1.800.COLUMNS Polystone™ Premier Custom Collection was chosen one of *The Readers Choice of Top 100 Design Build/Build Products*, in the November/December Issue of *Design Build Business*.

“Chadsworth's 1.800.COLUMNS Polystone™ Premier Custom Collection load-bearing columns work indoors or out. The columns are fire and impact resistant with sharp, crisp detail. The capitals and bases are made of the same tough material as the shafts,” say the editors.

Design Build Business is a leading resource for architects, designers, builders and contractors who design and build upper-end custom homes, luxury production housing for residential and light commercial projects. In this issue the editors list the products that readers of *Design Build Business* found to be the best.

“The Polystone™ Premier Custom Collection offers you endless design possibilities,” says Jeffrey L. Davis, Founder and Principal Designer of Chadsworth 1.800.COLUMNS, “and we are glad that the readers of *Design Build Business* recognize the value of our product.”
