Walls & Ceilings Magazine's "Tool Box" which features the latest new products to hit the market, spotlighted Chadsworth's 1.800.COLUMNS new Mt. Vernon Column in the April Issue.

Part of the companies PolyStone™ Premier custom Collection, the Mt. Vernon, which was named for Washington's home on the Potomac, exudes beauty and simplicity.

When George Washington renovated his beloved plantation in 1759, he added a stunning 2-story piazza overlooking the Potomac River. Today's *Mt. Vernon Column* affords you the same beauty and functionality, giving your house a traditional design element that will last a lifetime.

"The PolyStone™ Premier Custom Collection offers you endless design possibilities," says Jeffrey L. Davis, Founder and Principal Designer of Chadsworth 1.800.COLUMNS, "and of course being PolyStone™, are made to last a lifetime".
